

Internship and placement proposal iCuerious Research Services LLP

The role would be that of a Patent Analyst Intern and the location would be Mohali(Punjab). Currently, we have 6-8 openings for the role but in case we find exceptional talent and participation, we could go up till 10 in number.

A brief about the company:

iCuerious is the fastest growing intellectual property (IP) consulting firm in the region, providing full-service technology support for the entire stage of the IP process, with a focus on patents. Our team of technology specialists and subject matter experts has experience providing technical insights on various high-stakes patent lawsuits leading to multi-million dollar verdicts. We work closely with a diverse set of clients, including Fortune 500 companies, premier IP law firms, patent monetization and brokerage firms, independent inventors, and universities and focus on creating valuable IP ecosystems and patent monetization strategies via litigation and/or licensing. Additionally, our team leverages latest advancements in technology for building highly scalable tools aimed at improving efficiency across the innovation lifecycle, thereby facilitating a spurt in innovation.

Our main services include prior art and invalidation searches, target scouting, evidence-of-use charting and detailed infringement analyses, patent drafting, open-source and proprietary source code review, competitor benchmarking and IP intelligence, technology landscaping and whitespace analysis reports, patent monitoring and market research.

A brief about the role:

Candidates must have strong technical knowledge, good analytical, written and communication skills, with an eye for detail. The role of a patent analyst is to perform the patent search using various techniques, database and analysis of cutting-edge technologies constantly. The patent analyst is assigned to patent related projects that involve studying and understanding emerging technologies, and conducting various types of patent searches. Candidates shall be responsible for interacting with inventors as well.

The current job opening is for candidates from Electrical, Electrical/ Electronics and Communication, Computer Science or Mechanical domain.

Selection Criterion for internship:

- A written Technical Test followed by a Personal Interview at our office premises.
- **8 and above CGPA throughout the academic career.**

Remuneration: During the internship a stipend of Rs.8000/- per month and CTC starting from 4 LPA to 4.5 LPA depending upon the performance of the candidate(after the internship).
